FISCAL NOTE

HB 1272 - SB 1171

March 9, 2023

SUMMARY OF BILL: Expands the scope of practice of physician assistants and makes changes to collaboration requirements for physician assistants. Authorizes a physician assistant with greater than 6,000 hours of postgraduate clinical experience to practice independently without a collaborating physician. Establishes that a physician assistant with fewer than 6,000 hours of postgraduate clinical experience must collaborate with a physician, and may only hold a minority ownership interest in a healthcare setting. Authorizes a physician assistant to render emergency medical service in cases where immediate diagnosis and treatment are necessary to avoid disability or death.

Establishes that a physician assistant may prescribe, dispense, order, administer, and procure appropriate medical devices, legend drugs, and controlled substances that are within the physician assistant's scope of practice if the physician assistant has registered and complied with all applicable requirements of state law and regulation and the federal drug enforcement administration. Requires the Board of Physician Assistants (Board) to monitor the prescriptive practices of physician assistants through site visits.
